EDI Initiatives and reduction in transaction Cost

1. DGFT has established itself in the e governance field. From on line filing of application to electronic issuance of licenses, it has been a great success story. In furtherance of the EDI initiatives, online message exchange of DFIA Authorization with Customs has started from today. Therefore, now Advance Authorization, EPCG and DFIA are completely EDI enabled.
2. DGFT has also become India's first digital signature enabled department in government of India, which has introduced a higher level of Encrypted 2048 bit Digital Signature. Digital certificate provides a high level of security for online communication such that only intended recipient can read it. It provides authentication, Privacy, non-repudiation and Integrity in the virtual world.

Procedural simplification

1. Exporters have faced lots of problems in clubbing of their Advance Authorizations and in almost all the cases they were to approach DGFT, Hqrs. This procedure was time consuming and onerous. The procedure has now been simplified and the powers have been delegated to the Regional Authorities of DGFT. For the first time in the history of foreign trade formulation, the draft text for amendment of HBP v1 was uploaded on the website of DGFT seeking suggestions on our draft. The amendment has incorporated their valuable suggestions.
2. The application of IEC has become online w.e.f. 1.1.2011. This reduces the interface of exporters with the Regional Authorities of DGFT. An effort is also on to update the IEC database containing more than 7.6 lakhs IEC. All the IEC holders are being urged to cooperate in this effort and update their details on-line. This exercise would be completed by 31.3.2012.
